"As patient care becomes more involved and demanding, the opportunities provided by the West Park Hospital facility and its satellite

programs are extremely important to our community, and I believe this facility deserves all of our support. We are extremely fortunate to have a progressive Board of Trustees and internal leadership, as well as a great medical community from which we all benefit.

When our family and loved ones need medical care and support, we expect our medical community to provide the care, and this can only be maintained with our support for West Park Hospital."

— C. Edward Webster II

"Hospitals in Wyoming provide crucial and outstanding services to our residents. The work they do is important and recognized in the communities that they serve. It is crucial to continue providing state of the art care regardless of our rural population. I applaud your efforts to continue seeking new and better care for your patients in the area."

— U.S. Senator, Mike Enzi

"As chairman of the West Park Hospital Foundation Board, I understand the need of community support and participation. The foundation strives to meet the demands and needs of the facility through proactive fundraising. You can make an impact by donating to the annual fund, whether it be designated toward an endowment or a specific cause, it all comes back to you!"

— Graham Jackson
