4-H is a youth development program that uses project based experiences to teach our youth real life skills to prepare them to become positive members in their communities and world. Its motto is “To Make the Best Better” and we always strive to create greater successes with each child in each project. On the basic level, 4-H members join and choose projects they are interested in. These projects vary from Rocketry and Robotics to Cooking and Sheep. Then members become part of a club that meets regularly to conduct business, which allows the youth to be a part of a full functioning group. Within their club they perform community service, give presentations and run meetings with parliamentary procedure. In their clubs or during project meetings they learn about their chosen projects and hands-on experiences create a finished project by the end of the year. These finished projects, whether they are a market weight sheep or a walking robot, are displayed and judged at county fair. Throughout this process youth gain numerous skills that include responsibility, mastery, record keeping, and perseverance.

Big Brothers Big Sisters Mission is to provide children facing adversity with strong and enduring, professionally supported one-to-one relationships that change their lives for the better, forever. We currently serve hundreds of youth throughout the Big Horn Basin. We provide youth with mentors and friends through our proven match systems. We maintain a strong presence in rural Wyoming by enhancing services in the community and continue to reach out to more rural families each year. Many relationships between Bigs and Littles fall under our Community-Based programs. These are one-to-one outings and activities, doing things they enjoy together, like:

Inspiring each other	Hiking in the mountains	Hanging out and talking
Listening to music	Horseback riding	Taking a walk in the park

At the end of the day, it's really all about starting a friendship, providing guidance and inspiring youth to reach their potential. Imagine the possibilities, what will you START in a child's life?

Spanning over half of the State of Wyoming, the Central Wyoming Council of the Boy Scouts of America provides service for boys from age 8 to 21. Boy Scouts of America is one of the nation's largest and most prominent values-based youth development organizations. The BSA provides a program for young people that builds character, trains them in the responsibilities of participating citizenship, and develops personal fitness. For over a century, the BSA has helped build the future leaders of this country by combining educational activities and lifelong values with fun. The Boy Scouts of America believes – and, through over a century of experience, knows – that helping youth is a key to building a more conscientious, responsible, and productive society.

Boys and Girls Club Mission - To inspire and enable all young people, especially those who need us most, to realize their full potential as productive, responsible and caring citizens.

Park County Resource Book – 2013 Edition

Boys and Girls Clubs programs promote the development of young people by instilling a sense of competence, a sense of usefulness, a sense of belonging and a sense of power or influence. When this strategy is fully implemented, self-esteem is enhanced and an environment is created, which helps boys and girls achieve their full potential.

Leadership experiences are what make Girl Scouting unique. Wherever you chose to put your energies, we'll help you discover new opportunities, connect with new friends, and make a difference in the world around you. Senators, athletes, astronauts, and many more professional women received their first steps towards leadership in Girl Scouts. Girl Scouts provides experiences that will challenge you—helping you figure out what you want to do with your life, taking you to incredible places, and bringing you to new heights of personal achievement. From Girl Scout Daisy to Girl Scout Ambassador, your journey begins with the Girl Scout environment. Among other girls—away from school pressures, social cliques, and boys—you can be yourself and try new things. At Girl Scouts, activities are girl-led. You'll learn by doing, and participate in opportunities as varied as the world—so you can “try on” different leadership roles and choose the ones that fit you best. Girl Scouts helps you discover the leader you can be, and connect with others to have an effect on your world. Get started in Girl Scouting today.

MT Carmel Youth Ranch is an alternative boarding school designed for troubled teens and at-risk boys aged 12-17. We are owned and operated by a devout Catholic family who utilizes a unique therapeutic approach that focuses on building the Christian virtues within the wounded adolescent. Located on 40,000 acres that overlook the Beartooth Mountain range of northern Wyoming, MTCYR is a “real working cattle ranch” that offers students an authentic western experience. We believe that engagement with livestock and other ranch activities is instrumental in educating the mind, strengthening the body, and elevating the spirit. MT Carmel Youth Ranch utilizes several types of therapeutic programs as well as providing education and vocational training.

Reaching Hands Ranch is a nonprofit 501(c)(3) organization with a unique program that rescues horses and uses them to mentor at-risk youth. Reaching Hands Ranch was established in January of 2006, and serve youth from our local communities and horses within the State of Wyoming. Our organization rescues horses who need refuge and rehabilitation and uses them to provide children between the ages of 9 and 18 with a hands-on mentoring experience that aids in the prevention of abuse and neglect through a caring and learning environment. Our mission is to provide a life changing refuge and rehabilitation experience benefiting children and horses in need of a second chance.

Our program: Our youth "Ranch Hands" learn to care for the horses and assist in placing the animals in a new home. Horses used in the program will be required to pass a safety evaluation. Each week we focus on a lesson in character including citizenship, trustworthiness, respect, caring, responsibility and accountability.

Each program is six weeks in duration, three days per week, three hours per day. At the end of the program, Reaching Hands Ranch will host a family day so the Ranch Hands can bring family and friends alike to witness their accomplishments and meet their horses.

This program is a wholesome, refreshing experience for youth participants who have suffered from abuse, neglect or loss. Although the program does not involve counseling or therapy, the outcome of interacting with animals does have a therapeutic effect on children.

St. Joseph's Children's Home is a private, non-profit psychiatric residential treatment facility (PRTF) for youth ages six to eighteen that has been providing quality services to youth and families since

Park County Resource Book – 2013 Edition

1930. Providing psychiatric residential services for up to 62 youth, St. Joseph's offers a complete Psychiatric Residential Treatment Program in its main facility or acute stabilization and comprehensive evaluations at the Newell Children's Center. Both secured and open campuses are available, with 24-hour supervision, social skills training, psychotherapy, educational services and chemical dependency services provided by over 100 professional staff members. The children referred to St. Joseph's exhibit a variety of serious concerns including physical and sexual abuse or parental neglect, depression and suicide attempts, oppositional behavior and defiance of authority, runaway and substance abuse problems, excessive fear and anger, aggressive or sexually inappropriate behavior, and involvement with the juvenile court system. St. Joseph's exists to help residents identify challenges and develop the action plans necessary to assist in resolving problems. Support for the transformation of our residents into productive adults flows from openness, honesty, encouragement and providing all the tools necessary for this to occur.

Children's Special Health (CSH) is a program for Wyoming children and youth with special health care needs (CYSHCN) who require something beyond routine and basic care. Wyoming's CSH program is funded through Title V of the Social Security Act and state matching funds in order to do the following:

- Provide and promote family-centered, community-based, coordinated care for children and youth with special health care needs (CYSHCN)
- Facilitate the development of community-based systems of services
- Support core public health functions such as resource development, capacity building, public information, technical assistance to communities, provider training, and gathering and analyzing data
- Build community capacity via training, technical assistance, and financing
- Provide direct healthcare services to children and families as a way to fill gaps in services

Services provided by Wyoming's CSH program include:

- Coordination of care: helping families access services in their community
- Financial assistance for qualifying medical conditions (see eligibility for more information)
- Genetics and specialty care clinics
- Funds for translation services required by CSH clients
- Limited funding for transportation
- Diagnostic evaluation to determine diagnosis
- Some equipment and medications

Vocational Rehabilitation serves residents of Wyoming who have a mental health and/or physical disability that creates a barrier to employment and who are seeking gainful employment. This office serves Park and Big Horn counties. The goal of vocational rehabilitation is to help people with disabilities gain or maintain employment by providing vocational guidance and counseling, career counseling, assistance with training, job coaching, job development, wages for work experience, and assessment and diagnostic documentation. Clients may call the Cody Office to receive an intake packet and they will be assigned a certified rehabilitation counselor to complete the application process. Wyoming Department of Workforce Services is funded through federal and state funding and the Division of Vocational Rehabilitation specifically receives funding from the Rehabilitation Services Administration federally and the State of Wyoming as determined by the Wyoming Legislature.

Powell, WY 82435
Phone: 307-754-3349

Many of the children that come to us are living in a world of fractured sensory inputs. They just can't "put it all together." Every day, parents ask us, "My child has been diagnosed with (Autism, PDD, ADD/ADHD, ABI, etc.)... can the Sensory Learning Program help us?" At Sensory Learning Center International, we do not work with labels. We work with children and adults to improve perception, understanding and the ability to learn. The Sensory Learning Program is not a treatment. It is not a curative. It is an innovative approach to developmental learning that unites three modalities (visual, auditory and vestibular) into one intervention allowing individuals to better integrate sensory messages.

The Visually Impaired Program (VIP) Services are provided in the consumer's home and tailored to meet their needs. Individual consumer goals for living independently are developed, with a plan to achieve those goals. VIP Specialists provide information and referral; skills training; peer support; and individual and systems advocacy concerning low vision and living independently in the home and community. VIPS will assist consumers in finding the right equipment and low vision aids to meet their goals for independence. Resources offered include Low Vision Information and referral; Assessment of Home/Environment; Low Vision Equipment assessment (magnification, lighting, talking devices); Applications to Foundations for Financial Assistance; Information about Peer Support Groups; and Consumer Disaster Preparedness.

Services provided to individuals 55 years or older who are blind or have a permanent visual impairment, such as macular degeneration, glaucoma, stroke, or diabetic retinopathy. Must have a visual acuity of 20/50 or significant field loss. Must sign a Release of Information so VIP Specialist can get a written Vision Report and Diagnosis from individual's eye doctor. This information must be current within the last 6-12 months. The report is reviewed for eligibility of services. WILR is a private non-profit agency which is funded through federal and state grants and private contributions.

The Cent\$ible Nutrition Program offers cooking lessons for those on a limited income. These lessons help participants to shop smarter at the grocery store and to promote cooking from scratch. This program is grant funded by the SNAP program through the United States Department of Agriculture. Funded by two federal grants, Cent\$ible Nutrition provides education opportunities for Wyoming families and individuals with limited resources, with an aim of helping families eat better for less.

Park County Resource Book – 2013 Edition

Cent\$ible Nutrition targets adults living in rural or urban areas who are responsible for planning and preparing family meals, with an emphasis on households with young children. Youth served may be children of eligible participants or students in schools with at least 50 percent of the student body enrolled in the free/reduced lunch program.

Classes for individuals or groups are provided based on income guidelines. They enable participant to develop new skills and gain knowledge to:

- 1) Improve nutrition and physical wellbeing of the family
- 2) Increase knowledge of the essentials of human nutrition and physical activity
- 3) Increase the ability to select and buy food that satisfies nutritional needs
- 4) Improve skills in food production, preparation, storage, safety, sanitation and meal-time practices
- 5) Increase the ability to manage food budgets and related resources and benefits

BBFC distributes produce baskets, organic produce baskets, artisan bread and sandwich bread every other week. BBFC is a group of people who work together for mutual benefit. This is a grassroots, all volunteer, no contracts, no catch co-operative. Since there are no employees at Bountiful Baskets, we as a group pay rock bottom prices on your food. This also means the co-op would not happen without volunteers. If you are interested in the co-op continuing, please volunteer occasionally. All it takes is a little time, energy and a smile.

The Cody Cupboard is a nonprofit food bank that provides temporary food assistance to those in need. The cupboard serves as a supplemental resource for people who are having financial difficulty or the burden of unexpected expenses. The cupboard operates on a referral system in conjunction with the Department of Family Services, Yellowstone Behavioral Health, Hope House, Crisis Intervention Services, Park County Public Health, local churches, police, etc. Generally, individuals or families contact us through the referring agency, however, it is the cupboard's policy to provide food to everyone who requests food, regardless of referral. Donors may contact the cupboard by phone, and the cupboard is funded mainly through local donations, though grants provide occasional assistance.

A state and federally funded program helping people pay home heating bills October through May. People who are approved for assistance through LIEAP may also be eligible for Weatherization services to make their homes more energy efficient and further lower heating costs. The program is open to home owners and renters, and it helps cover the costs of electric, natural gas, propane, wood, diesel heating oil, coal and pellets used for heating a home.

Crisis Assistance is available for households facing an emergency home heating situation. That includes life or health-threatening situation. The program helps cover utility hookup deposits and/or back bills to prevent a shut off. Funds also are available to buy replacement furnaces. The maximum benefit is \$600, and payments are made directly to the fuel provider. To see if you qualify, fill out a LIEAP application.

Low Income Weatherization Assistance Program (WAP)

See contact information for LIEAP

The Weatherization Assistance Program helps households save money on home heating costs by improving energy efficiency. Weatherizing homes often means adding more insulation, sealing leaks around doors and windows, and it always includes basic health and safety checks. An energy audit determines which weatherization measures will get the biggest bang for the weatherization dollars spent on each home. Weatherization can save 5-25 percent on home heating bills.

Applications for LIEAP program are available beginning October 1, 2011 and are accepted until February 29, 2012. We accept Weatherization Assistance Program applications every day of the year.

Weatherization Assistance is a service that reduces a home's energy costs by sealing air leaks, tuning up furnaces, adding insulation and, sometimes, replacing appliances. Certified weatherization technicians look at carbon monoxide levels, ventilation and wiring. They often wrap water heaters and pipes in protective blankets and seal major air leaks with caulk.

The program is funded by the U.S. Department of Energy. The program recently was expanded under the Economic Stimulus Act, which allows for up to \$6,500 to be spent winterizing a home. It doesn't matter if you own or rent your home. If its energy needs are significant, and the resident's income qualifies for LIEAP the home could be weatherized.

The youth of our country have always been important to the Order. It is for this reason the Elks Drug Awareness Education Program was launched to warn primary grade students and their parents of the dangers in drug use. Additionally, every lodge observes June 14th as Flag Day, a tradition which the Elks began in 1907 and was later adopted by the Congress as an official observance

matters. Accordingly, the clinic's caseload consists of juvenile matters (child abuse and neglect), domestic relations (divorces and custody disputes), Immigration, appeals involving the denial of government benefits (social security, Medicare, etc.), and other miscellaneous matters. In addition to representing clients, the Legal Services Program includes a comprehensive training program. Students receive instruction in areas such as client counseling, alternative dispute resolution, domestic relations practice, domestic violence issues, and civil practice in Albany County and the State of Wyoming.

The clinical program was expanded to include a Domestic Violence (DV) clinic, which is also a live-client clinic. Students represent victims of domestic violence, dating violence, sexual assault and stalking in civil matters in which domestic violence is an issue. Such matters include divorces, child custody modifications, requests for domestic violence protection orders, or requests for civil stalking orders.

Facebook: The HOPE Clubhouse

H.O.P.E. is an acronym for Helping Ourselves Perform Effectively. The mission of the HOPE House is to provide a supportive environment in which adults who suffer from serious and persistent mental illness can rediscover their self-respect, dignity, and abilities through the opportunity to perform productive work, obtain a sense of belonging, and create meaningful relationships.

Eligibility Criteria for Membership:

- Persons shall be considered for admission without regard to race, color, sex or sexual orientation, religion, creed, national origin, age (except under 18 years), familial status, marital status, source of income, or disability in addition to the mental illness.
- Must be 18 years of age or older.
- Must have obtained a primary diagnosis of a severe and persistent mental illness.
- Must be able to independently meet self-care and safety needs. As individuals are free to come and go as they like from the clubhouse, they must possess the necessary safety skills and judgment to move around the community.
- Cannot currently pose a threat to the clubhouse community or themselves.
- Must indicate an interest in rehabilitation/recovery goals.
- Medically stable, able to exit the building within 3 minutes in case of emergency.
- Must agree to remain alcohol and illegal drug free while at HOPE House.
- Must agree to abide by the rules of the HOPE House and Wyoming state laws.

To be referred for membership, the referral form must be completed and signed. We would like all prospective members to complete this application with the licensed clinician recommending them. There are spaces for signatures on the back of the application. The HOPE House Team Leader will review the referral form and then Member Services will contact the prospective member for Orientation.

The Wallace H. Johnson Group Home is a regional transitional group home for adults with severe and persistent mental illness, providing services to the Northwest region of Wyoming (Park, Big Horn, Washakie, and Hot Springs County). The group home offers a short term transitional program to assist people in strengthening or developing skills to live independently. The group home has 6 beds and serves both men and women. The facility is staffed 24/7 with professional staff, including a licensed masters level therapist, a case manager, a psychiatric nurse, mental health technicians, and respite care aides. The program offers individual and group therapy, case management, individual and group skill building, and socialization and recreational opportunities for the clients in a supportive and comfortable home setting. Skill building is available on daily living skills, managing mental illness, budgeting, communication, and many other areas. Case management is available to help with accessing resources in the community, obtaining employment or volunteer work, and to assist with housing. As with all services provided at Yellowstone Behavioral Health, services are provided on a sliding scale fee or can be billed to Medicaid, Medicare, and other health insurance coverage. Referrals from outside the region are accepted subject to availability of beds. For more information or to make a referral, contact the group home at 307/587-5112.

The American Legion was chartered and incorporated by Congress in 1919 as a patriotic veterans organization devoted to mutual helpfulness. It is the nation's largest wartime veterans service organization, committed to mentoring youth and sponsorship of wholesome programs in our communities, advocating patriotism and honor, promoting strong national security, and continued devotion to our fellow servicemembers and veterans.

Hundreds of local American Legion programs and activities strengthen the nation one community at a time. American Legion Baseball is one of the nation's most successful amateur athletic programs, educating young people about the importance of sportsmanship, citizenship and fitness. The Heroes to Hometowns program connects local Legionnaires with recovering wounded warriors and their families, providing a variety of support activities. The Legion raises millions of dollars in donations at

the local, state and national levels to help veterans and their families and to provide college scholarship opportunities.

The American Legion is a nonpartisan, not-for-profit organization with great political influence perpetuated by its grass-roots involvement in the legislation process from local districts to Capitol Hill. Legionnaires' sense of obligation to community, state and nation drives an honest advocacy for veterans in Washington. The Legion stands behind the issues most important to the nation's veterans community, backed by resolutions passed by volunteer leadership.

The American Legion's success depends entirely on active membership, participation and volunteerism. The organization belongs to the people it serves and the communities in which it thrives.

delivered meals. When referred by WSIL, Hands 2 Help, West Park Hospital or Park County Public Health, non-seniors can receive home-delivered meals, through the Medicaid Waiver Program. For seniors eating at the senior center, there are no restrictions. If a senior (or a member of the senior's family) requests home-delivered meals, an outreach coordinator visits them to determine if they "qualify," meaning they must be truly homebound. Seniors are asked to fill out an AGNES report annually, which provides a record of services to help maintain funding. For non-seniors, there is no application process.

The Family Caregiver Support Program serves the caregiver who is responsible for a functionally dependent older adult. The recipient is someone who is unable to perform at least two activities of daily living or due to cognitive or other mental impairment, requires substantial supervision.

What we do: Respite care for family of elderly, chronically ill or hospice patients, Light housekeeping with attention to a clean, safe environment, Prompt care receivers to perform activities of daily living, Monitor to assure the safety and well-being of care receivers, Reminders for self-administration of medications, Encourage exercise and leisure activities for client, Provide care giving tips, assistance and individualized training to families.

This is all done through a Care Management team made up of Wyoming Senior Citizens staff, the care provider and the family to insure care that is holistic in nature. The program will utilize some Senior Companion volunteers and some highly skilled and trained respite workers.

The Family Caregiver Support Program will be helping the population in a 45 mile radius around Riverton, Casper and Cheyenne.

Park County Resource Book – 2013 Edition

Billions of federal dollars are lost annually due to health care fraud, error and abuse. Since 1997 the Administration on Aging (AOA) has funded Senior Medicare Patrol (SMP) projects to recruit and train retired professionals and other senior citizens about how to recognize and report instances or patterns of health care fraud. In Wyoming this is accomplished through cooperation between the SMP Project and Wyoming Senior Health Insurance Information Program (WSHIIP) to educate and train our counselors and volunteers. These counselors and volunteers help Medicare recipients to better understand their Medicare Summary Notices (MSN) through community presentations and one-on-one counseling, so they can detect and resolve unintended errors. In addition they are made aware of how threats to financial independence and health status may occur when citizens are victimized by fraudulent schemes. These SMP projects partner with the aging network, as well as community, faith-based, tribal, and health care organizations. Together they utilize a variety of outreach strategies to educate and empower their peers to identify, prevent and report health care fraud. Currently, the SMP program funds 54 projects in all states, the District of Columbia, Puerto Rico, Guam and the U.S. Virgin Islands.

Contact the Wyoming hotline at 1-800-856-4398 if you have questions or concerns related to Medicare waste, fraud, or abuse; or if you would like to become a volunteer.

If you have questions about what constitutes Medicare waste, fraud, or abuse, refer to the national SMP website at <http://www.smpresource.org>

The mission of an assisted living facility is to provide a safe, homelike environment while offering assistance with activities of daily living (ADLS). Assistance varies depending on the location and client, but often offers help with medication, meals, bathing, and dressing. In addition, there are many opportunities for social interaction with others in the community. Assisted living communities fill the gap between independent living and nursing home care.

Mission: The Park County Coalition Against Substance Abuse (PCCASA) exists to increase the awareness of and reduce substance abuse among the youth population.

The Park County Coalition against Substance Abuse (PCCASA) was established in 2002 and functions as a leader and advocate for change, bringing the community together to pursue the shared goal of preventing youth substance abuse. It has fostered active collaboration in problem solving and strategy building among Park County coalitions, multiple agency directors, law enforcement, judiciaries, school and public officials and concerned citizens. As emerging issues arise, PCCASA is uniquely positioned to quickly bring key players together to 1) evaluate the environmental factors that increase protective factors and minimize risk factors associated with substance use, and 2) identify and implement the community-wide solutions for positively impacting these factors.

What is Wyoming 2-1-1?

Every hour of every day, people need essential services—from finding food and shelter to securing adequate care for a child or an aging parent. Faced with multiple agencies and nonprofits providing a broad range of social services, people often don't know where to turn or how to start. In many cases, they end up going without these necessary services.

Wyoming 2-1-1 is a free, confidential, health and human services information and referral system.

Wyoming 2-1-1 was launched in February 2011 and is supported by many different agencies.

Wyoming 2-1-1 ensures that the health and human services system works by connecting people with the right services instead of the frustrating and time-wasting hit-or-miss connections made by people calling multiple agencies on their own behalf trying to find the right office or program or person.

Health and human services are only valuable when they get to the right people. Wyoming 2-1-1 supports all health and social service providers' plans to be adaptive, flexible and responsive to the needs of people in Wyoming.

Until Wyoming 2-1-1, there had been no single, comprehensive statewide provider of information and referrals for Wyoming. Because many health and human services providers offer specialized programs and services for those in need, clients are often confused or frustrated about where to turn for help. The goal of Wyoming 2-1-1 is to improve the health and welfare of people in Wyoming by connecting them to appropriate services. It can be used directly by consumers as well as by service providers and case managers for referral information.

Service is available statewide by dialing 2-1-1 during normal business hours and online anytime at www.wyoming211.org

With Wyoming 2-1-1, callers can receive referrals for:

- Basic needs: Food, clothing, shelter, temporary financial assistance, transportation, disaster.
- Physical and mental health resources: Crisis intervention, prenatal care, support groups, counseling, drug and alcohol intervention, rehabilitation, children's health insurance programs.
- Financial stability: Employment referral services, Earned Income Tax Credits, WIC, credit counseling, food stamps, rent and utility assistance, unemployment benefits, job training, education programs.
- Support for older Americans and persons with disabilities: Home health care, adult day care, congregate meals, Meals on Wheels, respite care, transportation, homemaker services.
- Support for children, youth and families: Childcare, after-school programs, family resource centers, summer camps, recreation programs, mentoring, tutoring, literacy programs, protective services.
- Support for community crisis or disaster recovery: 2-1-1 systems in other states have proven valuable in disaster relief efforts. The ability to respond and assist will be developed as funding allows.
